## Experience

- |  |   |                              |
|--|---|------------------------------|
| <b>Graduate Research Assistant</b>   | <b><u>Georgia Institute of Technology</u></b> | <b>Jan. 2019 – Present</b>   |
| <ul style="list-style-type: none"><li>Developed a Flask web app to parse and unify affordable housing data for the city of Atlanta</li><li>Designed and developed an Android app to gather network measurement data on hiking trails</li><li>Designed and developed a React/Express web app to map and visualize the network measurement data</li></ul>  |   |                              |
| <b>Software Engineering Intern</b>   | <b><u>Nike</u></b>                            | <b>Jun. 2020 – Aug. 2020</b> |
| <ul style="list-style-type: none"><li>Enabled a new digital consumer touchpoint by creating a backend service that lets Nike deliver emails to athletes after they complete a run within the Nike Run Club app</li><li>Enhanced Nike's research model through real-time delivery of feedback surveys to over 2K+ study participants</li><li>Placed 2<sup>nd</sup> out of 29 teams in the internal hackathon with a project focused on sustainability</li></ul> |   |                              |
| <b>Graduate Teaching Assistant</b>   | <b><u>Georgia Institute of Technology</u></b> | <b>Jan. 2020 – May 2020</b>  |
| <ul style="list-style-type: none"><li>TA'd for CS 6310 Software Architecture and Design in Georgia Tech's Online MSCS program</li><li>Analyzed UML diagrams and conducted code reviews for an online course of over 500 students</li><li>Graded over 30 assignments biweekly by analyzing software design diagrams and Java code</li></ul>   |   |                              |
| <b>Civic Data Science Intern</b>   | <b><u>Georgia Institute of Technology</u></b> | <b>May 2018 – Jul. 2018</b>  |
| <ul style="list-style-type: none"><li>Built an SMS chatbot using Twilio and Flask to support data collection of rat sightings in Atlanta</li><li>Garnered over 100 reports and presented the project to Atlanta city officials</li><li>Developed metadata extraction tool to batch geocode images with the Google Maps API</li></ul>   |   |                              |

## Education

- |   |   |                              |
|---|---|------------------------------|
| <b>M.S. in Computer Science</b>   | <b><u>Georgia Institute of Technology</u></b> | <b>Aug. 2019 – Dec. 2021</b> |
| <ul style="list-style-type: none"><li>Concentration in Human-Computer Interaction (GPA: 4.0)</li><li>Relevant Coursework: Principles of UI Software, Ubiquitous Computing, Human-Computer Interaction, Mobile Apps and Services, Empirical Methods in HCI, Information Visualization</li></ul>                              |   |                              |
| <b>B.S. in Information Technology</b>   | <b><u>Middle Georgia State University</u></b> | <b>Jun. 2016 – May 2019</b>  |
| <ul style="list-style-type: none"><li>Concentration in Software Engineering (GPA: 4.0 — graduated at 18 years old)</li><li>Relevant Coursework: Data Structures and Algorithms, Database Principles, Software Engineering, Software Security, Operating Systems, Computer Architecture, Software Testing &amp; QA</li></ul> |   |                              |

## Leadership & Projects

- |   |                             |
|---|-----------------------------|
| <b><u>Georgia Tech iOS Club</u> - Senior Design Lead</b>  | <b>Sep. 2020 - Present</b>  |
| <ul style="list-style-type: none"><li>Created YouTube tutorials on iOS development and provided technical/design guidance to members</li></ul>        |                             |
| <b>Stanford University - Section Leader</b>   | <b>Apr. 2020 - May 2020</b> |
| <ul style="list-style-type: none"><li>Taught in Stanford University's <u>Code in Place</u> program for learning programming during COVID-19</li></ul> |                             |
| <b>Apple WWDC19</b>   | <b>2019</b>                 |
| <ul style="list-style-type: none"><li>Awarded a scholarship out of 350 people in the world to attend Apple's <u>WWDC19</u> conference</li></ul>       |                             |
| <b>Dia/Log</b>  | <b>2018</b>                 |
| <ul style="list-style-type: none"><li>Diabetes tracking app built around privacy and security; 270+ downloads on the <u>App Store</u>.</li></ul>      |                             |

## Skills

**Languages:** Python, Swift, HTML, CSS, JavaScript, Java, SQL

**Frameworks:** Flask, React, Node, Express, Jest, UIKit, Core Data, MySQL, MongoDB, git, zsh, Linux, A/B testing

**Software/Services:** Xcode, VS Code, REST, Postman, Docker, AWS, Jira, Sketch, Miro, Photoshop
